**Consent For treatment of Melasma/Age Spots,
Deep Veins & Spider Veins and Tattoo Removals**

Patient Name: _____ Date: ____/____/____

I authorize **Body Focus Laser & Longevity Center** to perform the procedure of:

This pulse system may dramatically reduce darkly pigmented sunspots and spider veins. More than one laser session may be necessary to achieve desired results. However other treatments, including skin care products, are often needed to blend color, reduce sun damage, and give the best results. The FDA has given the clearance for removal of brown spots, spider veins, and rosacea.

The skin treated will be red swollen with fine, thin scabs forming. Keep the treated areas covered with Polysporin and Aquaphor until the scabs fall off. This process will take anywhere from 1-3 weeks. It could take as long as 3-6 months in some rare cases. Do not scratch the scabs, as that can cause scarring. _____Initials

We are unable to treat clients that are on ACCUTANE and PHOTSENSITIZING medications. Clients using ANTICOAGULANTS should notify us.

The following problems may occur with treatment:

1. **Scarring:** The light pulsed system can create a bruising and a moderate burn or blister to the skin. For an affective treatment, the power (joules) needs to be just bellow the blistering point that means skin will be red. However slight, there is a risk of scaring.
_____Initials
2. **Hyper-Pigmentation:** (browning) and (whitening) have been noted after treatment, especially with a darker complexion. This usually resolves within weeks, but it can take long as 3-6 months in some cases. Permanent color change is a rare risk. If you have a lot of color in your skin, a skin lightening cream will be advised to reduce the melanin in your skin before the treatment. Avoid son exposure after the treatment is crucial to reduce the risk of color change. _____ Initials
3. **Infection:** Although infection following pulsed light treatment is usual, bacterial, fungal, and viral infection can occur. Herpes simplex virus infections around the mouth can occur following the laser treatment. This applies to both individuals with past history of herpes simplex virus infection in the mouth area. Should any type of skin infection occur, additional treatment including antibiotics might be necessary? **If you have a history of herpes simplex virus in the treated area we recommend preventative therapy.**

- 4. **Bleeding:** Pinpoint bleeding is a rare but can occur following brown spot and spider vein treatment procedures. Should bleeding occur, additional treatment might be necessary?
_____Initials

- 5. **Skin tissue pathology:** Energy directed at skin lesions may potentially vaporize the lesion. Laboratory examination of the tissue specimen may not be possible. Only clearly benign pigmented lesion can be treated. Check with your doctor for a clearance for the treatment.
_____Initials

- 6. **Allergic reactions:** In rare cases, local allergies to tape, preservatives used in cosmetics of topical preparations, have been reported. Systemic reactions (which are most serious) may result from prescription medicines. Allergic reactions may require additional treatment.

- 7. Wear sunscreen of SPF 25 or higher before and after treatment to protect the skin.
_____Initials

- 8. I understand I may need multiple treatments for the desired outcome.

- 9. I understand that exposure of my eyes to light could harm my vision. I will keep the eye protection on at all times. _____ Initials

- 10. Compliance with the aftercare guidelines is crucial for healing, prevention of scarring, hyper-pigmentation and hypo-pigmentation. _____Initials

Occasionally, unforeseen mechanical problems may occur and your appointment will need to be rescheduled. We will make every effort to notify you prior to your arrival to the office. Please be understanding if we cause you any inconvenience. _____Initials

ACKNOWLEDGEMENT:

My question regarding the procedure has been answered satisfactorily. I understand the procedure and accept the risks. I hereby release Body Focus Laser & Longevity Center from all liabilities associated with the above-indicated procedure.
